

# Apple IIc computer with bonus of over \$500 worth of extras!

Give your family an Apple IIc for Christmas and you're giving them a complete computer package worth over \$2,500. It comprises computer with inbuilt disk drive, monitor with high resolution screen and monitor stand. Plus AppleMouse: a simple button pointing device that controls specified programmes without using the keyboard. You get MousePaint to turn the screen into a drawing board; Bank Street Writer, a fun way to learn word processing; Print Shop for designing your own stationery and a chess software package. The powerful 128K computer itself comes with 6 lucid self-teaching programmes—open your Apple on Christmas morning and chances are you'll have learnt to use it by Christmas dinner. Apple, made to grow with you and your family.
