Medfly can tax your mind, mind your tax, and let you play in space.

The Medfly home computer is compatible with the largest library of software available today. What this opens up to you and your family is simply amazing. For your children — education packages on Algebra, Spelling, Mathematics, Vocabulary — making your Medfly virtually a home coach or tutor.

For personal and business use — get access to Time Management, Business Systems, Accounting Packages and Financial Broadsheets. For family entertainment — you'll be able to share the fun of Action Games, Strategy Games and Adventure Games, which you can plug straight in to your home TV screen.

Medfly is a thinking machine to expand young minds; a working machine for home or business accounting; a games machine for family fun. And above all, Medfly is a value machine, with quality electronics by Siemens and with more features, capabilities and add-on potential than many costlier microcomputers.

The basic Medfly microcomputer system — alpha/numeric keyboard and processor — is available now for just $1,995 including sales tax.

GREAT NEW PROFU

You may have wondered why Jaycar did not (until now) sell home computers. We had many reasons but our main one was that we were not entirely "happy" with any of the units currently on the market. The closest we came to what we thought was a pretty good computer was the Apple. We thought that it was, quite frankly, expensive. However it was so much admired throughout Australasia by a reputable sales network - so there was no need for Jaycar!

That's why we got so excited when we saw the "Micro Professor MkII". It is the closest thing that we have seen to be software compatible with the Apple. Yes, we know what you're thinking. It's NOT one of those cheap Taiwanese "Apple" copies which infringe Apples' copyright. The Micro Professor MkII is a completely new and unique design in its own right. It just so happens that most of the widely distributed Apple software will run on this machine. O.K. But why so excited? LOOK AT THE PRICE! Check out the STANDARD FEATURES of this unit. Sit down. Think about it and COMPARE what you get with the Micro Professor MkII as STANDARD that are options on other machines!!

COMPUTER Only $5 SENSATION! 698

MICRO-PROFESSOR II OUTSTANDING!
Low cost colour computer with APPLE compatibility*

*Most Apple Soft I BASIC programs will run on the MPF II.

PRO-GRADTE SOLDER SUCKER
SEE REVIEW EA DECEMBER 1982
