ESSENTIAL DATA DUPLICATOR PROGRAM INFORMATION LIST 4-7

Refer to Appendix "A" of your EDD 4 manual for instructions on using this list.

To receive the next program information list we publish, send a self addressed stamped envelope (business size) along with $2, include your EDD 4 serial number, and be sure to tell us the number of the latest list you own as described on page 5 of your EDD 4 manual.

ADDITIONAL INFORMATION:

EDD VERSION 4.8 is the latest revision of EDD in which the copy-protection has been removed, so now EDD can make back up copies of itself using the "normal" mode. If you don't already have this revision you can get it by sending your EDD 4 or EDD 4 PLUS disk to us with $5 (USD) to cover ship/handling and we will rewrite your EDD disk for you.

NOTE: CONTROL: You need EDD version 4.4 or later to run on IIGs. Also, you MUST select 40 columns in the control panel and if you have EDD 4 PLUS, don't forget to select "YOUR CARD" in the control panel indicating the slot you installed the PLUS card. Just a reminder: EDD will only copy to, and from 3 1/2 inch floppy disks.

SIMPLE PARAMETER CHANGE: We have found that parameter change "09-02" is very powerful for making back up copies of disks when the normal mode doesn't work. This is probably the single most powerful parameter change EDD 4 has available.

STANDARD EDD & OWNERS: Even though an instruction listed here might say to use "BIT COPY" mode, you might still try to copy the disk using the "normal" mode, with the 09-02 parameter change listed above. Although the copy may not work you at least have a chance.

ADVANCED USERS: If you feel EDD is not finding the correct track EDD, try changing parameter 13-60 or 13-40.

EDD SOURCE CODE LISTING BOOKS are now for sale at total cost of $7 each ($9 overseas) if prepaid by check or money order. This is the same book described on pages 5 and 6 of your EDD 4 manual. Although beginners can benefit, this book is an absolute MUST for advanced users. We've just received a truck load from the printers, so we can ship immediately. Pass the word!
