Using Two Disk Drives on the Apple®:
This program automatically assumes that you are using one disk drive. If you wish to use two disk drives, the following command may be used at the beginning of play:

1. Type SETUP when the first cursor appears on the screen.
2. Follow the instructions on the screen to indicate how many drives you are using.
3. Follow all screen instructions on which disk to insert to continue gameplay.

NOTE: Do not attempt to interchange SAVE disks between one and two disk drive systems. Any gameplay that you SAVE on a Save Disk created under a two drive system, for example, can only be RESTORED when using two drives.
Always will ambitious men in the shadow of a throne reach for the power of the throne; as this was true for Chaos, so it is for Amber. There are many paths to Amber, and I, Dworkin, know them all. For I am the Pattern, and it is the Pattern which casts the myriad shadows which surround Amber—Amber, the one true world, created as the powers of Chaos raged and despaired. The immortal children of Oberon walk the shadows at will, but dissatisfied, return ever and anon to Amber’s gates. For they need to rule as fire needs air, and only in Amber will they find the challenge—and the power—they seek.

These are my notes; there are darker secrets than those inscribed here which I dare not entrust to paper. All around me, the royal sons and daughters of Oberon plot and scheme to place themselves nearest their father’s throne, and in their hands the knowledge I bear would surely open the gate to Chaos, the realm of oblivion....

Ah, Amber... golden queen, wrested from Chaos with toil and blood. Those who seek to rule you have no understanding of your nature, and I fear for you in their hands.
So the children of Oberon plot for the throne... let them plot forever. Their plots are as the nipping of lion cubs at their sire's heels, for none will rule so long as Oberon wears the crown. Still they scheme, waiting for the end of Oberon's day. They make alliances in an attempt to secure their positions. The one who finally sits on the throne will come to it on the shoulders of those with whom he allies. But he must take care; many agree to join forces only to betray an ally at their convenience.

Not all are like this. Some are more honorable than others—Benedict is faithful to Amber alone, and will protect it with his life. But Corwin and Eric, it would seem, have declared a blood feud on one another. There is more than the throne between them, though they will not admit it; neither one will rest until the other is dead or disgraced. Bleys and Brand, those of Clarissa's lot, seem to have reached an agreement of some kind; I do not trust those two minds when joined in common cause. Of all the women, only Fiona seems to bear any interest in the throne. As for the rest, they lack either the will or the desire to take the throne for themselves; they are content to ally with the strongest candidate.

All dealings with the offspring of Oberon are hazardous, for each is dangerous after the manner of individuals. Secrets I might trust with one I would never give to another; I deal with each according to his nature.
Even as all roads lead to Amber, many paths lead to the throne. With each decision made, some paths will open up, others become forever sealed. Should two members of the royal house of Amber meet, they will alter the paths to the throne irrevocably; the fruit of that meeting may not become clear until the throne of Amber is within a prince's sight. In Amber one can always return to a meeting and try to change history; it may open up new, untravelled paths. A princess, if spared, may return to kill her brother. It is a wise prince who searches for different alternatives.

Physical Diplomacy
The Politics of the Sword *

Although the royal siblings may choose verbal sparring with each other, they do not hesitate to resort to physical persuasion as well. Random and Julian, it seems, must be dragged apart nearly every day. This is potentially deadly play, as the royalty of Amber has learned well how to use a sword. All have learned the basic skills; some, however, have gone beyond their masters. A prince of Amber can protect himself—or avenge an insult.

THE

Rite of Passage:
Walking the Pattern

As each member of the royal house of Amber comes of age, he must prove himself to be a prince of the blood by negotiating the Pattern. Walking the Pattern is not a task lightly taken, for once begun, even I can do naught but continue forward to the finish, or face oblivion. The Pattern gives the knowledge that a prince of Amber must have to fulfill his destiny.

When a child of Oberon walks the Pattern, he must pass through the five veils. Only then will he stand at the center of the Pattern and know what it is to be a true prince of Amber. With each veil passed, the way becomes more treacherous, but the rewards greater; and with the conquest of the final veil, a prince of Amber will know the secrets of both shadow and my gift, the Trumps.

Language of Amber

Artful communication is of great importance in Amber, and the Thari language reflects this, for half of our verbs are "communication" verbs. Though dialogue must be precise and short, by its nature it suggests a great deal more than is actually spoken.

FORMULATING COMMANDS IN AMBER

CONVERSING IN THARI

When speaking in Thari, use short, concise sentences. For example:

ALLY WITH DEIRDRE
ASK RANDOM ABOUT AMBER
LEAVE

PROPOSE ALLIANCE WITH ERIC
AGREE
TELL RANDOM ABOUT FLORA

Objects are used in Amber, of course, but their importance has diminished over the centuries as communication has become more refined. When working with objects, the verb, directly followed by the object, will be best understood. For example:

TAKE SWORD
DROP SWORD

In order to see something more closely, EXAMINE THE [object]; to see what is being carried or worn, check the INVENTORY or INV. In order to clearly see who is nearby, one should LOOK.

Sentences can be made more complex by combining up to three short phrases; to do this, the phrases must be separated by the word AND or THEN. For example:

TAKE THE SWORD THEN EXAMINE THE SWORD
EXAMINE THE DESK AND OPEN THE DRAWERS
THE ART OF COMMUNICATION

As Thari has evolved, communication verbs have been split into several categories. These divisions reflect the type of verb: "hostile," "friendly," "neutral," or "response." These verbs have been codified, in their categories, in the verb list. Action verbs, such as ATTACK, RETURN, or CALL are listed as well.

Sacred Commands of The Royal House of Amber

Once a prince of Amber has completed walking the Pattern, he will have the knowledge he needs to use the tools that are his birthright. Several specialized verbs, used only by the royal blood of Amber, are listed below.

CONTACT—contact using the trumps
BREAK—cut contact using the trumps
IMAGINE—cast mental images
WALK SHADOW—traverse the shadows cast by Amber.

NOTE: one can only "walk shadow" to a person if his/her location is known.

Travelling Through Amber

When travelling through Amber and the shadows it casts, one can move from one location to another by the use of the commands LEAVE, EXIT, or GO TO [place]. One may also FOLLOW people who are going in a direction.

For example: FOLLOW DEIRDRE.

The Basics of Sword Fighting

CUT—slashing at the opponent with the blade of the sword.
THRUST—lungering at the opponent with the point of the sword.
FEINT—pretending to attack one portion of the opponent's body in an attempt to force him to protect that spot, thereby leaving another area unprotected.
PARRY—stopping an opponent's attack.

HIGH/LOW—the direction of the movement. High is the head and heart; low, the abdomen and legs.

These movements can be combined in the following ways:

THE PATTERN

When you have reached the Pattern, a screen with five stars will appear. You
must create a path that crosses each in order to complete the Pattern.
To play the Pattern game:
1—Choose among the five pieces in the bottom left hand corner. They are
numbered, from left to right, one through five. As a piece is chosen, a
different piece will replace it.
2—Create a path by connecting the pieces to the existing path, beginning in
the bottom center of the screen, by choosing the number of the piece that
will continue the path.
3—To add additional branches, add a “T” piece, and a differently colored branch
will form off the original path. As each new branch is made, a new color will
appear at one end of the “T”. The original color will continue at the other end.
You may have up to four branches; the first is white, then red, blue and black.
Paths can cross differently colored paths, but if you try to cross the same
colored path you are on, you will lose the game.
4—To place a piece on a particular path, type the number of the piece, followed
by the color of the path, e.g. 1 WHITE, 5 RED, or 3 BLUE.
5—Choosing a piece which does not fit the path you select will cause you to
leave the Pattern and lose the game.
